STOP THE GM APPLE

To the Honourable the Legislative Assembly of the Province of British Columbia, in Legislature Assembled:

The petition of the undersigned, residents of the province of British Columbia, states that:

> The BC company Okanagan Specialty Fruits is asking the federal government to approve a genetically modified (GM, also called genetically engineered) "non-browning" apple.
> The GM apple threatens the reputation of BC's apples, and GM contamination threatens the future of our apples and the farmers who grow them.
> A 2012 survey found that 69% of Canadians don't want the GM apple to be approved.

Your petitioners respectfully request that the Honourable House take urgent action to halt commercial introduction of the genetically modified apple.

Dated _____ day of _____, 20 ____.
